The Style of a "Dorothy Dodd"

Let us assume that your Shoes fit you. Now what next? What is most important? Unquestionably style. Demand that a Shoe shall possess style. If it has style and little else, you want it. If it has not style, but everything else, you don't want it. The Style of a "Dorothy Dodd" is unique. It cannot be duplicated by any other maker, because the "Dorothy Dodd" is a totally different construction from any other ladies' Shoe made. It holds the foot firmly at the waist—that's the instep—and prevents the toes from slipping forward, thus giving a correct poise in walking. Yet it makes the foot look nearly a whole size smaller. That's curious, and you won't believe it till you see it. Just for once try the Style of a "Dorothy Dodd." Sincerely yours,

Short and Fat, Long and Slim

OR EXTRA LARGE MEN

Can be fitted and suited here. We have Suits made for the "hard to fits" and we fit them. Many stout and slim men, who have given up trying to buy clothes ready made, come here and find exactly what they want. Now, Sir, if you are an extra tall, short or fat man come and see what we can do for YOU. We'll surprise you with the clothes—possibly more with the prices—for, being abnormal in shape, you've had to pay a penalty to your tailor. We do away with that and charge you no more than we do the ordinary built man. The styles of stuffs are always neat in stouts and slims.
